Introduction

This document details the data enhancements that are included within the March 2022 release of PointX data.

PointX is continually striving to improve its data holdings and this document highlights the specific changes made for this release.

Improved data holdings

AddressBase Core and OS MasterMap Highways Network

AddressBase Core and OS MasterMap Highways Network updated to January 2022 versions. UPRN population is now 50.9%

PointX Provenance records

PointX provenance records decreased for the **19th** release in a row, to 5,677 records.

Orders

Orders prior to September 2021 were created using Landmark's legacy ordering platform. This has now been migrated to FME. As a result, double quote text qualifiers exist around all attributes in the order files.
